Model No.

Serial No.

FCC Information

This product has been tested and complies with the specifications for a Class B digital device, pursuant to Part 15 of the FCC Rules. These specifications are designed to provide reasonable protection against harmful interference in a residential installation. This product generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the equipment on and off, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

Modifications to this equipment could void the FCC authorization to use the equipment.

For your protection: Use only the AC power adapter supplied with this product. Any other AC power supply could damage the equipment.

Adapter Information

This unit is designed to be used with a 9-volt alkaline battery. An adapter is not required. Use of the adapter is optional. The adapter is not included. Batteries are not included. This unit is for indoor use only.
